CD171:1,CD177:1. I will send to Castorrs and send you carbon. You sent no copy for me, please. I am returning t e slip you had attached to remind me to send to Castorrs with note that will tell me I have already carded it. Oneof the interesting things in this, aside from the "Ramous" name the Castorrs mentioned to me and the fact that LHO was not in Dallas 7/63 is the reference to "discussion groups" in Dallas. The only ones of which I know are right-wing and the Castorrs spoke of them in an appropriate context. However, there were such in N.O. at this very time LHO was reportedly attending some of them. 177 bears strong resemblance to Odio's "Leon". I thinkit kight be worth getting the rest of this. How R remebers the specific date (exactly two months of of the Odio one, allegedly) is provocative. This roughyl coincides with the general possibilities and details of the Hall etc business.
